Dear Doctor -

I am writing to introduce myself, Jason Sparnon, Director and Senior Clinical Audiologist at Adelaide Hearing, your local, independent partner in comprehensive hearing health care **at Torrens Park**. With 30+ years of combined industry knowledge and experience, our team is dedicated to providing an unrivalled service to all of our patients.

At Adelaide Hearing, we pride ourselves on being Adelaide's trusted local experts, offering evidence-based care without the pressures of corporate models. As **hearing loss affects up to one in six Australians** and is often linked to broader health concerns, **early detection and intervention is critical**. With convenient locations in **Torrens Park** and **Fulham Gardens**, as well as regular visiting sites across **Mount Barker, Stirling, Strathalbyn, Torrensville, Athol Park, Port Adelaide** and **Reynella**, we are equipped to support your patients seamlessly.

We specialise in a full spectrum of services tailored to diverse needs, including micro suction ear wax removal, custom ear plugs and hearing protection, as well as the following, fully bulk-billed for pensioners/DVA:

- Free hearing tests
- Latest hearing aids (all major brands) + 30-day no-risk trial
- Tinnitus assessment and management
- Fast, detailed reports back to you

If you have a patient that is struggling with hearing loss, or presenting associated symptoms of hearing loss, early referral makes all the difference. Call or email – we are always happy to take your call directly. Thank you for trusting us with your patients' hearing.

Regards,

Jason Sparnon
Director and Senior Clinical Audiologist
